About me

I am a Senior Analyst at Panalgo, a software company headquartered in Boston, MA. I use my background in statistics and data science to contribute to several phases of the software development cycle, most notably new feature development and customer support.

Skills

Python • R • Julia • Instant Health Data (IHD) • LaTeX • Git

Interests

Statistical Computing • Machine Learning • Reproducible Research • Bayesian Inference • Data Analysis • Statistical Analysis of Big Data • RWE • HEOR • Statistics in Sports

Miscellaneous

2018 Gupta Family Hackathon Winner

2015 SAS Certificate in Data Mining

2015 SAS Institute Award

2015 Excellence in Economics Award

Experience

2018-Pres. Panalgo — Boston, MA
Sr. Analyst, Analyst II
Answer customer support tickets on a variety of topics, including basic configuration troubleshooting, statistical model debugging, API workflows, and protocol implementation. Work with software engineering to develop new features for the IHD platform.

2017-2018 University of Michigan — Ann Arbor, MI
Data Scientist
Conducted statistical research involving longitudinal data analysis, functional data analysis, Bayesian hierarchical modeling, data visualization, and data wrangling. Collaborations with University of Michigan Department of Psychiatry and Drexel University Urban Health Collaborative.

2015-2017 University of Michigan — Ann Arbor, MI
Graduate Student Research Assistant
Developed statistical methods and applications in modeling cortisol, a biomarker of stress, as part of a large psychiatric study. Member of Biostatistics for Social Impact lab.

2014 Bryant University — Smithfield, RI
Undergraduate Research Assistant
Implemented econometric analyses concerning the economic impact of children, the education system, and the defense industry in the state of Rhode Island.

2014 NC State University — Raleigh, NC
Summer Institute in Biostatistics
Explored the field of biostatistics through lectures, statistical computing labs, and data analysis project. Sponsored by NHLBI and NCATS.

Education

2017 University of Michigan — Ann Arbor, MI
M.S., Biostatistics

2015 Bryant University — Smithfield, RI
B.S., Applied Mathematics & Statistics, Applied Economics
Summa Cum Laude

Publications

Mayer et al. (2019) How does hair cortisol assessment correspond to saliva measures and to lab-based probes of HPA axis regulatory function? Psychoneuroendocrinology

Abelson et al. (2019). Daily diurnal salivary curves: Are they too noisy to be useful? Psychoneuroendocrinology
