---

## Education

*University of Michigan*, M.S. Biostatistics 2017

Advisor: Brisa Sánchez

*Bryant University*, B.S. Applied Mathematics/Statistics, Applied Economics, *summa cum laude* 2015

Advisor: Brian Blais

## Experience

**Cold Spring Harbor Laboratory**

Cold Spring Harbor, NY

*Computational Science Developer*

2023-

Supervisor: Ben Cowley

Computational neuroscience and neuroAI research group led by Ben Cowley. Constructing connectome-constrained DNNs to understand visual processing. Mentor a talented high school student interested in computational neuroscience.

**Panalgo**

Boston, MA

*Associate Director, Product*

2022-2023

*Lead Analyst*

2022

*Senior Analyst*

2020-2022

*Analyst II*

2018-2020

Panalgo develops software for Real-World Evidence (RWE) studies. The company maps massive healthcare claims and EHR datasets into a data model and provides a web application to drastically simplify and accelerate patient-level analysis. I have worked with clients to implement various types of healthcare studies, engineers to enhance the product, machine learning experts to implement new algorithms, product leaders to develop roadmaps, and business analysts to understand user behavior.

**University of Michigan**

Ann Arbor, MI

*Data Scientist*

2017-2018

Conducted research involving longitudinal data analysis, functional data analysis, Bayesian hierarchical modeling, data visualization, and data wrangling. Collaborations with University of Michigan Department of Psychiatry and Drexel University Urban Health Collaborative.

**University of Michigan**

Ann Arbor, MI

*Graduate Student Research Assistant*

2015-2017

Developed statistical methods and applications in modeling cortisol, a biomarker of stress, as part of a psychoneuroendocrinology study. Member of Biostatistics for Social Impact lab.

## **Bryant University**

Smithfield, RI

*Undergraduate Research Assistant*

2014

Implemented econometric analyses concerning the economic impact of children, the education system, and the defense industry in the state of Rhode Island.

*North Carolina State University & Duke University*

Raleigh, NC

## **Summer Institute in Biostatistics**

2014

Explored the field of biostatistics through lectures, statistical computing labs, and data analysis project. Sponsored by NHLBI and NCATS.

## **Publications**

Mayer et al. (2019) How does hair cortisol assessment correspond to saliva measures and to lab-based probes of HPA axis regulatory function? *Psychoneuroendocrinology*

Abelson et al. (2019). Does salivary cortisol reflect key regulatory control aspects HPA axis functioning in healthy humans? *Psychoneuroendocrinology*

Abelson et al. (2019). Daily diurnal salivary curves: Are they too noisy to be useful? *Psychoneuroendocrinology*

Wang, J. et al. (2018). The Advantage of Doubling: A Deep Reinforcement Learning Approach to Studying the Double Team in the NBA. *MIT Sloan Sports Analytics Conference*

Skaza, J. and Blais, B. (2016). Modeling the Infectiousness of Twitter Hashtags. *Physica A*

Beaudin, L. and Skaza, J. (2015). Measuring the total impact of demographic and behavioural factors on the risk of obesity accounting for the depression status: a structural model approach using new BMI. *Applied Economics*

Skaza, J. and Blais, B. (2013). The relationship between environmental degradation and economic growth: exploring models and questioning the existence of an Environmental Kuznets Curve. *Bryant University Center for Global and Regional Economic Development Working Paper Series*

## **Certifications**

LangChain for LLM Application Development (DeepLearning.AI)

2023

ChatGPT Prompt Engineering for Developers (DeepLearning.AI)

2023

Practical Deep Learning for Coders (fast.ai)

2023

Introduction to SQL (Coursera)

2023

Programming with Google Go Specialization (Coursera)

2022

SAS Certificate in Data Mining (Bryant University & SAS Institute)

2015

## **Awards**

Sanjay Gupta Family Hackathon Winner

2018

SAS Institute Award (Top Applied Mathematics Undergrad)

2015

Excellence in Economics Award (Top Economics Undergrad)	2015
Honors Program 2011-2015	
Undergraduate Research Grant	2013

## **Skills**

Python (NumPy, Pandas, scikit-learn, Keras), R (tidyverse), Go, Julia, Nim, Jupyter, Git, SQL, MongoDB,  $\LaTeX$ , Notion, Jira

## **Interests**

Cognitive Computational Neuroscience, Biologically-Plausible AI, NeuroAI, XAI, Reproducible Research

## **Select Coursework**

Statistical Computing, Machine Learning, Bayesian Inference, GLMs, Longitudinal Analysis, Survival Analysis, Probability, Neuroscience, Cognitive Psychology

## **References**
