## Education

*University of Michigan*, M.S. Biostatistics 2017

*Bryant University*, B.S. Applied Mathematics/Statistics, Applied Economics, *summa cum laude* 2015

## Experience

*Panalgo* Boston, MA

Associate Director, Product 2022-Pres.

Lead Analyst 2022

Senior Analyst 2020-2022

Analyst II 2018-2020

Panalgo develops software for Real-World Evidence (RWE) studies. The company maps massive healthcare claims and EHR datasets into a data model and provides a web application to drastically simplify and accelerate patient-level analysis. I have worked with clients to implement various types of healthcare studies, engineers to enhance the product, machine learning experts to implement new algorithms, product leaders to develop roadmaps, and business analysts to understand user behavior.

*University of Michigan* Ann Arbor, MI

Data Scientist 2017-2018

Conducted research involving longitudinal data analysis, functional data analysis, Bayesian hierarchical modeling, data visualization, and data wrangling. Collaborations with University of Michigan Department of Psychiatry and Drexel University Urban Health Collaborative.

*University of Michigan* Ann Arbor, MI

Graduate Student Research Assistant 2015-2017

Developed statistical methods and applications in modeling cortisol, a biomarker of stress, as part of a psychoneuroendocrinology study. Member of Biostatistics for Social Impact lab.

*Bryant University* Smithfield, RI

Undergraduate Research Assistant 2014

Implemented econometric analyses concerning the economic impact of children, the education system, and the defense industry in the state of Rhode Island.

*North Carolina State University & Duke University* Raleigh, NC

Summer Institute in Biostatistics 2014

Explored the field of biostatistics through lectures, statistical computing labs, and data analysis project. Sponsored by NHLBI and NCATS.

## Publications

Mayer et al. (2019) How does hair cortisol assessment correspond to saliva measures and to lab-based probes of HPA axis regulatory function? *Psychoneuroendocrinology*

Abelson et al. (2019). Does salivary cortisol reflect key regulatory control aspects HPA axis functioning in healthy humans? *Psychoneuroendocrinology*

Abelson et al. (2019). Daily diurnal salivary curves: Are they too noisy to be useful? *Psychoneuroendocrinology*

Wang, J. et al. (2018). The Advantage of Doubling: A Deep Reinforcement Learning Approach to Studying the Double Team in the NBA. *MIT Sloan Sports Analytics Conference*

Skaza, J. and Blais, B. (2016). Modeling the Infectiousness of Twitter Hashtags. *Physica A*

Beaudin, L. and Skaza, J. (2015). Measuring the total impact of demographic and behavioural factors on the risk of obesity accounting for the depression status: a structural model approach using new BMI. *Applied Economics*

Skaza, J. and Blais, B. (2013). The relationship between environmental degradation and economic growth: exploring models and questioning the existence of an Environmental Kuznets Curve. *Bryant University Center for Global and Regional Economic Development Working Paper Series*

## Certifications

LangChain for LLM Application Development (DeepLearning.AI) 2023

ChatGPT Prompt Engineering for Developers (DeepLearning.AI) 2023

Practical Deep Learning for Coders (fast.ai) 2023

Introduction to SQL (Coursera) 2023

2022 Programming with Google Go Specialization (Coursera) 2022

2015 SAS Certificate in Data Mining (Bryant University & SAS Institute) 2015

## Awards

Sanjay Gupta Family Hackathon Winner 2018

2015 SAS Institute Award (Top Applied Math Undergrad) 2015

2015 Excellence in Economics Award (Top Econ Undergrad) 2015

## Skills

Python (NumPy, Pandas, scikit-learn, Keras), R (tidyverse), Go, Julia, Nim, Jupyter, Git, SQL, MongoDB,  $\LaTeX$ , Notion, Jira

## Interests

Software Development, Computational Statistics, Artificial Intelligence, Reproducible Research, Workflow Automation

## Select Coursework

Statistical Computing, Machine Learning, Bayesian Inference, GLMs, Longitudinal Analysis, Survival Analysis, Probability

## References
