About me ———

I enjoy using my passion for programming and statistics to attack complex problems in an elegant and reproducible manner.

I am an Associate Director of Product Management at Panalgo, a software company headquartered in Boston, MA. I use my background in data science to contribute to various components of our industry-leading healthcare analytics platform. I've had the privilege to leverage my skills in various aspects of the business as our web application has matured. My contributions relate to new feature development, the product roadmap, bug fixes, reusable code snippets, technical documentation, product analytics, and customer support.

Skills ———

R • Go • Python • Julia • Nim • 上上X • Git • MongoDB • XQuery

Interests —

Software Development •
Computational Statistics • Machine
Learning • Reproducible Research •
Workflow Automation

Awards —

2022 Programming with Google Go Specialization

2018 Gupta Family Hackathon Winner

2015 SAS Certificate in Data Mining

2015 SAS Institute Award

2015 Excellence in Economics Award

Experience

2018-Pres. Panalgo Boston, MA

Assoc. Director, Lead Analyst, Sr. Analyst, Analyst II

Design, implement, and test features to improve our software. Manage user-facing R & XQuery code snippet repository. Answer customer support tickets on a variety of topics ranging from basic login

troubleshooting to API connections.

2017-2018 University of Michigan

Data Scientist

Conducted statistical research involving longitudinal data analysis, functional data analysis, Bayesian hierarchical modeling, data visualization, and data wrangling. Collaborations with University of Michigan Department of Psychiatry and Drexel University Urban Health Col-

laborative.

2015-2017 University of Michigan

Ann Arbor, MI

Graduate Student Research Assistant

Developed statistical methods and applications in modeling cortisol, a biomarker of stress, as part of a large psychiatric study. Member of

Biostatistics for Social Impact lab.

2014 Bryant University

Smithfield, RI

Undergraduate Research Assistant

Implemented econometric analyses concerning the economic impact of children, the education system, and the defense industry in the

state of Rhode Island.

2014 NC State University

Raleigh, NC

Summer Institute in Biostatistics

Explored the field of biostatistics through lectures, statistical computing labs, and data analysis project. Sponsored by NHLBI and NCATS.

Education

2017 University of Michigan Ann Arbor, MI

M.S., Biostatistics

2015 Bryant University Smithfield, RI

B.S., Applied Mathematics & Statistics, Applied Economics

Summa Cum Laude
